DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group II, claims 5-9 with respect to SEQ ID No. 17 in Paper No. 13 is acknowledged. The traversal is on the ground(s) that there is no undue burden on search Groups II, IV, VI and VIII because they are all dependent on PMSA peptide encoding nucleic acid. This is not found persuasive because the product can be used in difference methods and examining each method with respect to the difference issues applicable to each method is a burden.

The requirement is still deemed proper and is therefore made FINAL.

Information Disclosure Statement

The information disclosure statement filed 12/4/01 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. All of the US Patents and Foreign Documents were pulled by the Examiner and some of the Journal articles were also pulled. However, applicant is requested to re-submit the **non-initialed** references.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not claim priority to provisional application number 60/193386.

Claim Rejections - 35 USC § 112

Claims 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

They depend on a non-elected claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5-9 (as they read on SEQ ID no. 17) are rejected under 35 U.S.C. 102(b) as being anticipated by Israeli et al US 5538866.

Nucleotides 2392-2418 of SEQ ID NO. 1 read on a nucleic acid sequence having SEQ ID no. 17. Because "having" is considered to be open language the reference reads on the claim. It is also noted that nucleotides 2392-2418 of SEQ ID NO. 1 read on the elongated form of SEQ ID No. 17.
